DETAILED ACTION

Claim Objections

1. Claim 25 is objected to because of the following informalities: Claim 25 makes reference to the "transition plate" which is set forth in claims 22-24. Thus, claim 25 should be changed to depend from one of claims 22-24. Appropriate correction is required.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

4. Claim 21 is rejected under 35 U.S.C. 103(a) as being unpatentable over Showalter in view of Tucker.

Showalter discloses the claimed invention including side panels 20 and a rear panel 22, and a protective bag cover 36 including side flaps (shown in Figure 8).

Showalter also shows that the bag cover can be used with the side and rear panels or not (Figures 3 and 4).

Showalter does not disclose the specific type of bag cover including a frame with a covering fabric having retracted and deployed positions.

Tucker discloses a bag cover for a golf cart including a frame with a covering fabric having retracted and deployed positions.

It would have been obvious to one skilled in the art at the time the invention was made to substitute the bag cover of Tucker for that of Showalter in order to enhance the ease of moving the cover from over the golf clubs when retrieving or replacing clubs while golfing with the bag cover being used to protect the clubs in between shots.

Allowable Subject Matter

5. Claims 1, 3-14, and 16-20 are allowed.
6. Claims 22-24 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3612

7. Claim 25 would be allowable if rewritten to overcome the objection set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Arguments

8. Applicant's arguments with respect to claim 21 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
